FIFTH SYMPOSIUM

Defining a new era
in digestive disease therapies

Thursday, May 3rd, 2018

Clinique de Genolier

Route du Muids 3, 1272 Genolier

Invitation

Dear Sir or Madam,

Swiss Medical Network is pleased to invite you to the fifth Symposium on a new era in digestive disease therapies, which will take place at “La Clinique de Genolier”, Route du Muids 3, 1272 Genolier, on Thursday, May 3rd, 2018.

This fifth Symposium is designed not only for discussing the new scientific developments of digestive disease interventions but also to promote discussions and exchanges on a large international scale.

We have learned from our previous meetings, that new trends and new developments will be realistic only when confronted and shared with others.

We are therefore developing this platform of exchanges for the benefit of all our patients.

We hope that you will enjoy the scientific progress as well as the intense discussions.

We look forward to welcoming you next May in order to define the future of digestive disease therapies.

Sincerely yours,

Raymond Loretan
Chairman of the Board
of Directors

With the support
of our partners:

ACCESS

Located 25 km from Geneva and 35 km from Lausanne on the outskirts of Genolier Village, la Clinique de Genolier can be reached by:

Car

Leave the motorway in Nyon towards Dijon - St Cergue and then Trelex - Genolier.

Train

From Geneva or Lausanne railway station, via Nyon, change in Nyon for St Cergue - La Cure. Leave the train at "La Joy / Clinique de Genolier".

Plane

Geneva-Cointrin Airport. Go to the train station and proceed as above.
